

Love play remote control ring

PRODUCT MANUAL

7 vibration modes

Remote-controlled

Bunny clitoral
attachment

Super stretchy

Removable bullet

Made from soft TPR
material and ABS
plastic

Power

- The bullet is powered by 3 LR44 batteries (included).
- Unscrew the base of the bullet to replace the batteries.
- The remote is powered by 1 L1028 battery (included).

How To Use

- Apply water-based lubricant on your shaft.
- Wear around the penis or penis and testicles.
- Hold the  button to turn on/off.
- Press the  button quickly to cycle through 7 vibration modes.
- If pain or discomfort occurs, immediately remove the constriction ring.

Power
button

LIMIT THE USE OF THE CONSTRICTION
RING TO NO LONGER THAN 30 MINUTES
PER USE

Cleaning and Care

- Use a toy cleaner/mild soap with water to clean the product before and after each use.
- Pat with a towel and allow it to air-dry completely.
- Do not get water inside the bullet or remote as they are not waterproof.
- Dust the ring lightly with the corn starch for better use.
- Store away from heat and sunlight.
- Use with the water-based lube only, no silicone lubricants.

Warning

- Stop using the constriction ring if pain occurs.
- Do not fall asleep while wearing the constriction ring, since prolonged use may cause permanent injury to the penis.
- Allow at least 60 mins between uses as more frequent use may increase the risk of injury to the penis.
- Do not use the constriction ring under the influence of alcohol or drugs, since it may impair the user's judgment and increase the risk of injury to the penis.

- Misuse of a constriction ring may cause bruising, painful injury, or permanent damage to the penis.
- Constriction rings do not prevent pregnancy.

Precautions

- Use of a constriction ring may aggravate already existing conditions such as Peyronie's disease (the formation of hardened tissue in the penis that causes pain, curvature, and distortion, usually during erection); priapism (persistent, usually painful erection of the penis as a consequence of disease and not related to sexual arousal); and urethral strictures (urethral stricture is an area of hardened tissue which narrows the urethra, sometimes making it difficult to urinate).
- **Prolonged use of the constriction ring (i.e., without removal) may cause permanent injury to the penis.**

- Incorrect use of this device may bruise or hurt the blood vessels within the penis or scrotum, resulting in petechiae (a small purplish spot on a body surface, such as the skin or mucous membrane, caused by a minute hemorrhage), hemorrhage (flow of blood from ruptured blood vessels), or the formation of a hematoma (localized swelling filled with blood resulting from a break in a blood vessel).
- Use the least constricting ring size that maintains your erection, since excessive constriction could injure the penis.
