

## Pleasure+

10 massage modes

Pleasure nubs and ribs

Adds extra girth

Triple loop for extra support

Made from silicone and ABS plastic

PRODUCT MANUAL

## Power

- The item is powered by 1 AAA battery.
- Unscrew the cap of the item to insert the battery.
- Follow the polarity instructions inside the battery case.
- When storing for an extended period, please remove the battery from the toy.

1 AAA  
battery

## How To Use

- Apply lubricant on yourself and inside the toy before use.
- Wear around the penis and testicles.
- Hold the  button to turn on/off.
- Press it quickly to cycle through 10 massage modes.
- If pain or discomfort occurs, immediately remove the constriction ring.

LIMIT THE USE OF THE CONSTRICTION RING TO NO LONGER THAN 30 MINUTES PER USE

Power  
button

## Cleaning and Care

---

- Use a toy cleaner/mild soap with water to clean the product before and after each use.
- Pat with a towel and allow it to air-dry completely.
- Use with the water-based lube only, no silicone lubricants.
- Please avoid contact with silicone or silicone-containing materials as it may damage the product.

## Warning

---

- Stop using the constriction ring if pain occurs.
- Do not fall asleep while wearing the constriction ring, since prolonged use may cause permanent injury to the penis.
- Allow at least 60 mins between uses as more frequent use may increase the risk of injury to the penis.
- Do not use the constriction ring under the influence of alcohol or drugs, since it may impair the user's judgment and increase the risk of injury to the penis.
- Misuse of a constriction ring may cause bruising, painful injury, or permanent damage to the penis.

- Constriction rings do not prevent pregnancy.

## Precautions

---

- Use of a constriction ring may aggravate already existing conditions such as Peyronie's disease (the formation of hardened tissue in the penis that causes pain, curvature, and distortion, usually during erection); priapism (persistent, usually painful erection of the penis as a consequence of disease and not related to sexual arousal); and urethral strictures (urethral stricture is an area of hardened tissue, which narrows the urethra, sometimes making it difficult to urinate).
- **Prolonged use of the constriction ring (i.e., without removal) may cause permanent injury to the penis.**
- Incorrect use of this device may bruise or rupture the blood vessels

within the penis or scrotum, resulting in petechiae (a small purplish spot on a body surface, such as the skin or mucous membrane, caused by a minute hemorrhage), hemorrhage (flow of blood from ruptured blood vessels), or the formation of a hematoma (localized swelling filled with blood resulting from a break in a blood vessel).

- Use the least constricting ring size that maintains your erection, since excessive constriction could injure the penis.
