

Vibro donut

PRODUCT MANUAL

10 vibration modes

Remote control

**Made from silicone
and ABS plastic**

Charging

- For maximum pleasure charge before every use.
- Connect the included USB cable and insert the USB end into the wall adaptor or computer USB port (Computer must be turned on).
- The slow intermittent glow indicates charging in progress.
- A full charge takes up to 3 hours for 1 hour of play.
- Do not use the device while charging.

USB charging port

How To Use

Without remote control

- Hold the  button on the toy to turn on/off.
- Press it quickly to cycle through 10 vibration modes.
- If pain or discomfort occurs, immediately remove the constriction ring.

LIMIT THE USE OF THE CONSTRICTION RING TO NO LONGER THAN 30 MINUTES PER USE

With remote control

- Hold the  button on the toy for standby mode.
- Hold the  button on the remote to turn vibration on.
- Press the  button on the remote quickly to cycle through 10 vibration modes.
- Press the  button on the remote to pause the vibration.
- Hold the  button on the toy to turn it off.

Cleaning and Care

- Wash with warm water and soap before and after each use.
- Use a toy cleaner/mild soap with water to clean the toy before and after each use.
- Pat with a towel and allow it to air-dry completely.
- Use with the water-based lube only, no silicone lubricants.
- Please avoid contact with silicone or silicone-containing materials as it may damage the product.

Warning

- Stop using the constriction ring if pain occurs.
- Do not fall asleep while wearing the constriction ring, since prolonged use may cause permanent injury to the penis.
- Allow at least 60 mins between uses, as more frequent use may increase the risk of injury to the penis.
- Do not use the constriction ring under the influence of alcohol or drugs, since it may impair the user's judgment and increase the risk of injury to the penis.
- Misuse of a constriction ring may cause bruising, painful injury, or permanent damage to the penis.
- Constriction rings do not prevent pregnancy.

Precautions

- Use of a constriction ring may aggravate already existing conditions such as Peyronie's disease (the formation of hardened tissue in the penis that causes pain, curvature, and distortion, usually during erection); priapism (persistent, often painful erection of the penis as a consequence of disease and not related to sexual arousal); and urethral strictures (urethral stricture is an area of hardened tissue, which narrows the urethra sometimes making it difficult to urinate).
- **Prolonged use of the constriction ring (i.e., without removal) may cause permanent injury to the penis.**
- Incorrect use of this device may bruise or hurt the blood vessels within the penis or scrotum, resulting in petechiae (a small purplish spot on a body surface, such as the skin or mucous membrane, caused by a minute hemorrhage), hemorrhage (flow of blood from ruptured blood vessels), or the formation of a hematoma (localized swelling filled with blood resulting from a break in a blood vessel).
- Use the least constricting ring size that maintains your erection, since excessive constriction could injure the penis.
